

2018 Manual A Chapter 8 Transport, Storage Quiz

1. **Which statement about transporting pesticides is *true*?**
 - A. Carry hazardous pesticides in the passenger compartment of a vehicle to prevent unauthorized access.
 - B. Enclosed cargo boxes offer the greatest protection but are not always practical.
 - C. Operators of vehicles that transport hazardous materials are not required to have any special training, only a commercial driver's license.
 - D. The operator is not held responsible if a pesticide spill or accident occurs because the vehicle was left unattended.

2. **Which statement about pesticide storage facilities is *true*?**
 - A. If pesticides are stored in a small, locked cabinet or closet, it is not necessary to post warning signs.
 - B. Carefully consider soil and land surface characteristics when selecting a storage site to prevent potential contamination of water sources.
 - C. Store pesticides in a warm, airtight environment.
 - D. The floor of the pesticide storage site should consist of materials such as carpeting or wood.

3. **To prevent damage to pesticide labels, you may use transparent tape or a coating of lacquer or polyurethane to protect them.**
 - A. True
 - B. False

4. **What is the *first* thing you should do if you notice a damaged pesticide container?**
 - A. Put on appropriate personal protective equipment.
 - B. Transfer the contents into another sturdy container that can be tightly closed.
 - C. Use the pesticide immediately at a site and at a rate allowed by the label.
 - D. Clean up any spilled chemical.

5. **Which practice for minimizing storage problems is *not* recommended?**
 - A. Buy large quantities of pesticides to reduce costs and ensure that the chemicals you use are available when you need them.
 - B. Keep records of previous usage to make good estimates of future needs.
 - C. Mark each pesticide container with the purchase date, and keep an inventory of all pesticides in storage.
 - D. Be sure to note if the product has an effective shelf life listed on the label.

6. **What is the *first* step a business should take to develop a sound pesticide security program?**

- A. Coordination with authorities
- B. Risk assessment
- C. Employee training in security awareness
- D. Evaluation of pesticide security

7. Which would *not* be considered a good security practice?

- A. Instructing employees on pesticide inventory control
- B. Preventing access to equipment used in mixing, loading, or applying pesticides
- C. Replacing employees often with new personnel
- D. Reporting suspicious behavior to the FBI
